

BAY AREA
AIR QUALITY
MANAGEMENT
DISTRICT

PUBLIC NOTICE

January 16, 2019

TO: Parents or guardians of children enrolled at the following school(s):
Beginnings and Beyond Montessori Christian School
Queen of All Saints School

All residential and business neighbors located within 1,000 feet and all K-12 schools within ¼ mile of the proposed new or modified source(s) of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Application #29483 for the following source(s) of air pollution:

Soil Vapor Extraction System, abated by
Activated Carbon Adsorption Vessels
Pangea Environmental Services, Inc.
2151 Salvio Street
Concord, CA 94520

The Bay Area Air Quality Management District (the “District”) is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source(s).

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source(s) of air pollution. A description of the proposed project follows:

On behalf of Salvio Pacheco Square, LLC, Pangea Environmental Services, Inc. has applied for an Authority to Construct and a Permit to Operate a Soil Vapor Extraction System that will be used to remediate the contaminated soil. Extracted vapors will be abated by a set of two vessels of granulated activated

Bay Area Air District:

carbon vessels arranged in series before discharge to the atmosphere through an exhaust vent.

PRELIMINARY EVALUATION

The District has evaluated the permit application for the proposed project and has made a preliminary determination that the project is expected to comply with all applicable District, state, and federal air quality-related regulations, including the health risks resulting from toxic air contaminant emissions. The preliminary recommendation is to issue a permit for this project. After considering all comments received, the District will make a final determination.

ADDITIONAL INFORMATION

If you are interested in getting more information, you may request copies of the District's evaluation report by calling the District at the telephone number listed at the end of this notice. This information is also accessible on the District website at:
